

LPSI/22-23/CIR-25

Dear Parents,

It is my pleasure to inform you that in an effort to provide our students with the best and most holistic approach to English language learning, we have recently partner with Words Worth English Language System.

To make learning English enjoyable and efficient, Words Worth combines the benefits of technology and world-class learning material with an easy-to-use framework which is trusted by 100s of Schools across India.

***Here's an Insight into how children are going to learn English language with***

***Words Worth:***

***During the class***

- The user-friendly interface allows teachers to log into the Words Worth English Language System and conduct sessions from thereon, using interactive audio-visual aids and fun role-playing activities.
- The students can record their responses in a special workbook that is designed especially for classroom use and activities.
- The teachers will then be assigning practice work/homework based on the sessions that have been conducted

***When at home***

- When at home, the students can complete their practice work/homework assignments by using a -desktop, laptop, or through the Words Worth mobile app.

***Post-class report***

- The Words Worth portal is designed in a way that the teachers can track the progress of the students with a one-minute report. Additionally, parents can also track the progress of their children through the report

***We look forward to your continue support.***

Fondest Regards,

TEAM LPSI
